Project overview

A fresh perspective for TechNova. We are pleased to share our proposal for a thoughtful redesign of your digital home. Together, we will create an intuitive, modern website that reflects your brand and helps your business move forward.

Scope of work

A considered approach, from the first conversation to the final detail.

- Discovery & strategy
- User experience & interface design
- Responsive website development
- Content migration & optimization
- Testing, refinement & launch

Designed around your goals.

Built for what comes next.

Our approach

Clarity at every step.

01 Discover

We begin by listening. Stakeholder interviews, content review, and a clear understanding of your audience give every design decision a purpose.

02 Design

A focused visual direction brings the strategy to life. We explore layouts, typography, and interactions, refining the details together.

03 Build

Responsive development turns the approved designs into a fast, accessible website that feels natural on every screen.

Project timeline

Good work takes a little planning.

Weeks 1-2 / Discovery

Research, stakeholder conversations, content audit, and a shared project plan.

Milestone: an agreed sitemap and creative brief.

Weeks 3-5 / Design

Visual direction, page layouts, and an interactive prototype.

Milestone: approved designs for desktop and mobile.

Weeks 6-8 / Development

Build, content migration, accessibility checks, and final refinements.

Milestone: a tested website, ready to launch.

Investment & next steps

A thoughtful foundation for what comes next.

Project investment

Strategy and design	\$7,200
Development, content, and launch	\$10,200

Working together

A 40% deposit starts the project. The remaining balance is split between design approval and launch. All amounts are in USD.

Let us make something useful.

Review the proposal, share your questions, and let us know when you are ready. We look forward to building your next chapter together.
